

AUTHOR INDEX

Abdel-Hameed, M., 63
Ashour, S. K., 51

Belaid, D., 193
Belsey, E. M., 125
Bennett, M. J., 257
Busca, B., 27

Chatelin, F., 193, 237

D'Arcangues, C., 27
De Hoyos, A., 37

Ekholm, A., 111

Farley, T. M. M., 27, 125

Gribbin, J. O., 13

Hillion, H., 247

Kahn, B. E., 93

Machin, D., 27
Marcotrchino, F., 73
McClean, S. I., 13
Michaud, P., 173
Moreau, T., 227

O'Quigley, J., 227

Palmgren, J., 111
Pinol, A., 27
Porta, T., 237
Proth, J.-M., 247

Raimbourg, Ph., 161

Tapiero, C. S., 151
Toren, N., 151

Uri, N. D., 1

Williams, B. K., 207

KEY WORD INDEX

- Analysis of variance, 207
- ANOVA, 207
- Arrow's theorem, 173
- Bankruptcy cost, 161
- Bayesian, 51
- Block replacement, 63
- Brownian motion, 151
- Canonical analysis, 193
- Capital structure, 161
- Categorical data, 111
- Censored type I, 51
- Classification, 37
- Cluster analysis, 247
- Collective choice, 173
- Computational kernel, 193, 237
- Condorcet majority rule, 173
- Contraceptive acceptability, 27, 125
- Correspondence analysis, 193
- Daily record, 27
- Data aggregation, 73
- Decision trees, 257
- Delayed renewal processes, 63
- Discriminant analysis, 193
- Dominant eigenvalue, 193
- Double sampling, 111
- Economic performance, 1
- Empirical quantiles, 37
- Entropy, 257
- Errors of observation, 111
- Example data set, 27
- Exponential, 51
- Extended generalized linear model, 111
- Factorial data analysis, 193, 237
- Failure time distributions, 13
- Fault location, 257
- Fisher scoring, 111
- Hierarchical classification, 247
- Housing investment return, 161
- Hypothesis, 207
- Illiquidity, 161
- INDA, 193
- Industry structure, 1
- Interpurchase times, 93
- Inverse Gaussian distribution, 151
- Iteratively reweighted least squares, 111
- Kaplan-Meier product limit estimation, 13
- Latent class models, 111
- Manpower planning, 13
- Maximum likelihood, 51
- Maximum likelihood estimation, 13
- Menstrual pattern, 27, 125
- Microcomputers, 193
- Migration, 151
- Minimal set of primitives, 237
- Missing cells, 207
- Mixed model, 51
- Multidimensional, 37
- NBD model, 93
- NBUE (NWUE) random variables, 63
- Non-hierarchical clustering, 73
- Non-parametric distribution function, 13
- Parametrization, 207
- Personal finance, 161
- Preference aggregation, 173
- Principal component analysis, 193
- Product purchases, 93
- Production, scheduling, routing and inventory, 73
- Profit-concentration relationship, 1
- Prognostic indices, 227
- Promotional effects, 93
- Qualitative data analysis, 173
- Regenerative processes, 63
- Regression, 227
- Relational data analysis, 173
- Renewal equation, 63
- Renewal function, 63
- Renewal processes, 63
- Review, 125
- SARDA, 237
- Singular values, 193
- Sojourn time, 151
- Squared error loss, 51
- Stability, 1
- Statistical analysis, 27, 125
- Stochastic processes, 227
- Survival models, 227
- Survival prediction, 227
- Systolic algorithm, 237
- SYSTOLIMAG, 237
- Triangular orthogonal array, 237
- Unbalanced, 207
- Undersized array, 237
- Weather conditions, 37
- Weibull, 51
